

May League Committee Meeting 5/27/20

Attendees: Alison Yoho, Jackson Dolan, Andrew LeMaster, Drea Rosas, Grant Boyd, Tahlia Hodes, Chelsea Baldemor, Andrew McRea, Lance Iliev, Meg McNamara

Summer League

- No summer league
- No virtual summer league

Ranking System

- system possibly over-rates college players
- Need to more closely review weights given to each answer in the system
- will need to make changes/revisions ever year to maintain accuracy
- Need to weight most recent playing experience more than over time (former college player only plays pickup now, etc)
- Concerns with people seeing low scores
 - Maybe cut off scores at 3.0 or 5.0 so all lower ranked players end up the same without minor distinctions?
 - Group players into rounds w/o specific number assigned for each player
 - (how does this work with setting up a core?)
 - How do people learn their score/round number?

Core+Draft Mock Draft

- Suggest to drop down to max core of 8 people
- Max total score for top three players: 24.5
- Need to review scoring system to ensure weighted correctly
- Hard to figure out real scenarios when cores are all fabricated
- Need to run larger mock draft to work through more kinks.
