- Review Slide 14 regarding language of threshold of positive votes.
 - Suggested phrasing along the lines of "options with at least 80 positive votes..." or "options with >X%" (with X% being whatever percentage equals ~80 votes -- instead of "...80-100 positive responses (<50%)")
- Include link to original survey questions, if feasible.

Core + Draft Notes

General Notes

- What if not enough teams register in time?
 - Potentially drop to 3 or 2 locations instead of 4
 - If a location has 3 teams, may still be able to make it work
- Players signing up for Draft will select preferred location to be drafted. If that location's draft pool is already filled, then they may select a second and/or preferred location if they would be willing to play in a different area.
- Suggestion for Mock Draft before live draft for teams. [@Jackson Dolan](#) and [@Stephen Thies](#) to discuss feasibility / options.

Motion to vote on Fall League structure approval (pending core details as noted above): Passed (unanimous)
